Seven Queensland Sculptors

'Flight' Peter Steller

'Wrapped' Mela Cooke

We are pleased to introduce seven sculptors from the Queensland Sculptors Association at a joint exhibition at Manyung's new sculpture gallery in Flinders. It is a great opportunity to view seven very different styles, on show in the same space at the same time.

Twenty one works will be on display and created from combinations of base materials including wood, aluminium, wire, steel, granite and bronze.

These sculptures also depict a broad cross section of styles from abstracts to figurative human and animal form.

Given careful presentation and lighting they can each undoubtedly make major impacts on the spaces they are selected for.

Please plan a visit, either on opening day, Saturday 9th November or during the exhibition period ending Thursday 28th November.
